CHEEKLIFT

TIC BEAUTY GUIDE

May 2008 £3.20

BEFORE

**Name:** Julia Penning

**Age:** 41

**Occupation:** Administrator

**Try a cheeklift if:** You want to re-gain structure and heighten cheekbones for a younger appearance

**Where from:** Surrey

**Time it takes:** Two hours

**Price:** £4,000

**Before:** 'For sometime I had noticed my cheeks disappearing and a heaviness underneath my eyes. I read about the silhouette lift performed by Ms Kavouni and decided that this was the procedure for me'.

**During:** 'It was minimally invasive and consisted of a small incision being made under each eye. Excess skin is then pulled up and excess skin removed. It was totally painless as local anaesthetic is administered'.

**After:** 'Although there was slight discomfort afterwards, I was able to return to work 48 hours after the surgery and any swelling had calmed down a week or so after the treatment'.

**Lasting results:** 'I am delighted with the result and I love my appearance now'.

**Verdict:**  I have experienced a huge increase in my self confidence and that can't be a bad thing!
